The Metris-Pkg adds an aftermarket rear camera and front camera (or aux video) into the 2016 and Up Mercedes Metris van. All connections are Plug'n'Play behind the factory screen. Forcing either camera is available via steering wheel buttons or wire-triggers if desired.

This kit includes a [Nav-TV Cam 7](#) (reverse camera).

Note: If the vehicle has an OEM reverse camera and you're adding an additional video source (front cam or aux video), you must use [NTV-KIT714 Metris F-Cam](#) instead of this kit.
