## interfacing the future!

*Congratulations on purchasing your Nav-TV Corp. OPi-A8 interface. Please read this guide to learn about the features of your OPi-A8, how to use its controls, and more.*

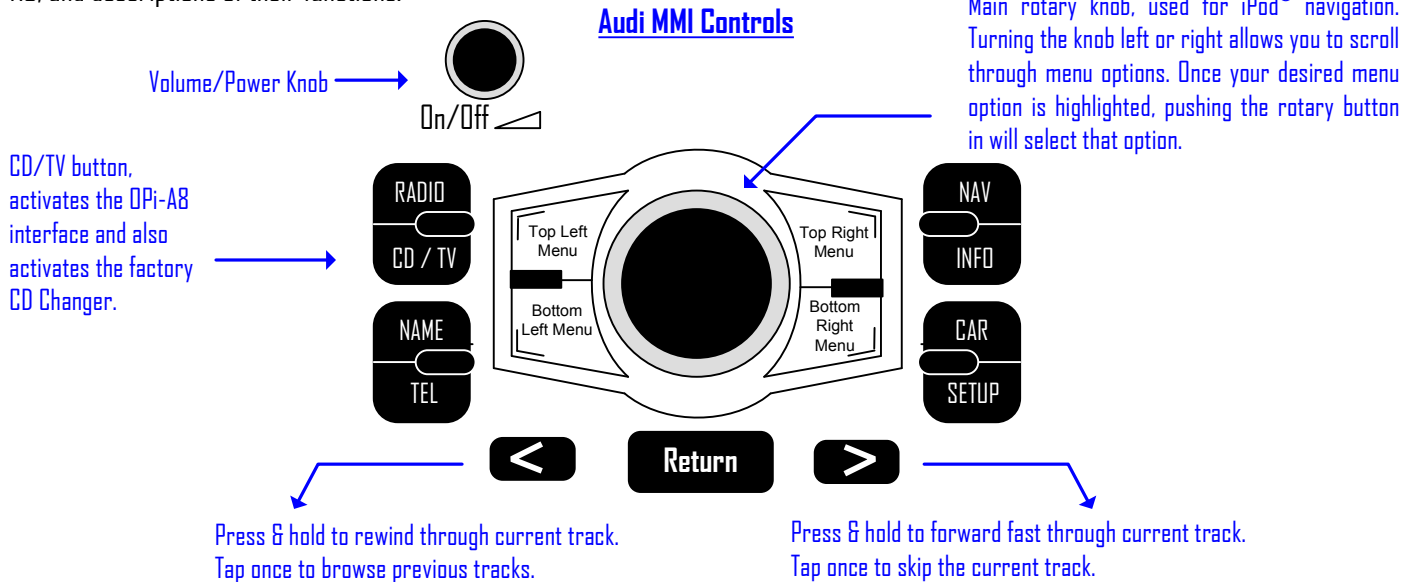

## OPi-A8

### A Little Product Insight

OPi-A8 is a direct iPod<sup>®</sup> interface developed for Audi vehicles utilizing the MOST fiber optic bus. OPi-A8 is designed to interface with current versions of the iPod<sup>®</sup> and iPod<sup>®</sup> Nano. Once installed, OPi-A8 allows the ability to control iPod<sup>®</sup> functions from the vehicle's head unit, and also allows partial control of iPod<sup>®</sup> functions (volume adjustment and track control) from the vehicle's steering wheel controls. To minimize driver distraction, the iPod<sup>®</sup> interface buttons will not respond while the iPod<sup>®</sup> is docked and the OPi-A8 is active. While the iPod<sup>®</sup> is docked with the OPi-A8 interface, the iPod<sup>®</sup> will automatically begin charging. In order to activate the OPi-A8 your radio must be in CD changer mode. Vehicles equipped with factory installed CD changers will lose the function of the CD changer once the OPi-A8 is installed. Vehicles that do not have a factory installed CD changer will not lose any radio functions.

### Navigating with the Nav-TV User Interface

Audi has developed a completely new operating concept that has been released for the first time in the new Audi A8: Audi MMI or Multi Media Interface. The Audi MMI concept stylishly integrates all infotainment components into one display and operating system. By reducing the number of controls to the essential elements and a uniform operating logic, this system makes it possible to exploit tremendous function and technology potential while maximizing operating convenience. We recommend that you spend some time familiarizing yourself with the features and operation of the MMI and OPi-A8 while your vehicle is stationary. We incorporated several features into the product to allow quick and safe access to your favorite music or audio using head unit controls as well as steering wheel controls. Specific head unit buttons have designated functions. Below are the buttons used to navigate with the OPi-A8, and descriptions of their functions.

Do not be distracted from driving safely! Be responsible! Neither Nav-TV Corp. nor Apple Computer, Inc. it's regional offices, distributors or resellers accept any responsibility for any damage or injury as a result of OPi-A8 with the iPod! Exercise good judgment and keep your eyes on the road at all times!

## OPi-A8

### OPi-A8 Library Navigation

OPi-A8 was engineered for iPod® lovers by iPod® lovers, with a common goal in mind. Simplicity. OPi-A8 puts the familiar iPod® menu right on your head unit, making OPi-A8 an extremely user friendly interface. Music and audio files are displayed the same as they are stored on the iPod®. OPi-A8 allows you to browse music files by play lists, artists, albums, and genres. Before using your OPi-A8, we recommend that you organize your audio files into categories on your iPod®.

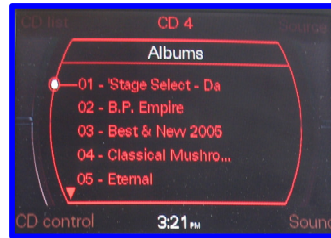

#### Browsing by Categories

Organizing your iPod® music library into categories, allows stress-free browsing of your music library. Below you can find steps for browsing by play lists, artists, albums, and genres using your OPi-A8 interface.

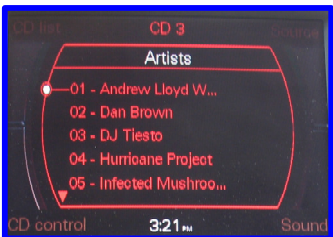

#### Browsing by Play Lists

- Step 1: Select "CD List" > "Play Lists"
- Step 2: Select Desired Play List > "CD List"
- Step 3: Select "Play Selection"

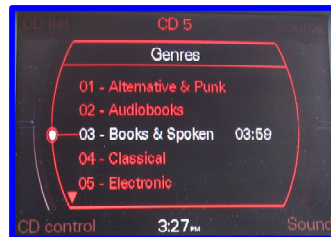

#### Browsing by Albums

- Step 1: Select "CD List" > "Albums"
- Step 2: Select Desired Album > "CD List"
- Step 3: Select "Play Selection"

#### Browsing by Artists

- Step 1: Select "CD List" > "Artists"
- Step 2: Select Desired Artist > "CD List"
- Step 3: Select "Play Selection"

#### Browsing by Genres

- Step 1: Select "CD List" > "Genres"
- Step 2: Select Desired Genre > "CD List"
- Step 3: Select "Play Selection"

### Auxiliary Audio Input

The OPi-A8 interface is also available with an optional auxiliary audio input. OPi-A8 kits with the auxiliary audio input will include a modified main harness (w/ two female RCA jacks for left & right audio input) and upgraded software. Once the OPi-A8 is completely installed, refer to the following in order to activate the auxiliary audio input.

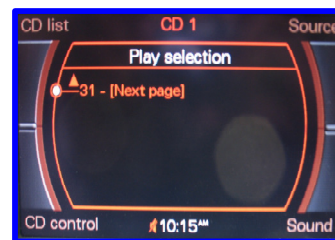

#### Activating Aux In

- Select "CD List" > "Extras"
- Select "Aux In"

### Library Paging

OPi-A8 is designed to display it's categorized information in increments of thirty. For example, if the OPi-A8 user has one hundred songs in a playlist, you will be able to access all the songs in the playlist, but will only be able to display them thirty at a time. Refer to picture below to utilize the "Next Page" & "Previous Page" options of the OPi-A8.

Do not be distracted from driving safely! Be responsible! Neither Nav-TV Corp. nor Apple Computer, Inc, it's regional offices, distributors or resellers accept any responsibility for any damage or injury as a result of OPi-A8 with the iPod! Exercise good judgment and keep your eyes on the road at all times!

## OPI-A8

### Activating Manual or Radio Controls

OPI-A8 allows the ability to control iPod functions from the vehicle's head unit, and also allows partial control of iPod functions (volume adjustment and track control) from the vehicle's steering wheel controls. To minimize driver distraction, the iPod buttons will not respond while the iPod is docked and the OPI-A8 is active (feature can be overridden by using the manual control feature).

#### Activate Manual Control

Select "CD List" > "Extras"  
Select "Track List" > "Manual Control"

#### Activate Radio Control

Select "CD List" > "Extras"  
Select "Track List" > "Radio Control"

### Software Version

To display your OPI-A8 software version, follow these steps:

Step 1: Select "CD List" > "Extras"

Step 2: Refer to the first line in the "Extras" menu for the OPI-A8 Program Date.

Do not be distracted from driving safely! Be responsible! Neither Nav-TV Corp. nor Apple Computer, Inc. it's regional offices, distributors or resellers accept any responsibility for any damage or injury as a result of OPI-A8 with the iPod! Exercise good judgment and keep your eyes on the road at all times!
